*Divisia Monetary Aggregates Index*

## Description

Calculates Divisia monetary aggregates index as given in Barnett, W. A. (1980).

## Usage

```
## Default S3 method:
dmai(.data, method = c("Barnett", "Hancock"), logbase = NULL)
```

## Arguments

.data	data.frame
method	Method to calculate Divisia monetary aggregates index, Barnett or Hancock
logbase	base of log to be used in Barnett divisia monetary aggregates index method, default is NULL or 10

## Value

Divisia Monetary Aggregates Index
